## Definitions

This policy addresses gender affirming services for transgender and gender diverse individuals when gender identity differs from assigned sex at birth.

**Please Note:** According to the American Psychiatric Association, the *Diagnostic and Statistical Manual of Mental Disorders* (DSM-5) defines gender dysphoria as a condition where a person’s gender at birth is “contrary to the one they identify with.” This definition replaces the criteria for gender identity disorder which will no longer be used in DSM-5. However, ICD-10 codes continue to use the term gender identity disorder, and providers will need to submit claims for coverage using this diagnosis.

## Policy<sup>1</sup> and Products

### Commercial Members: Managed Care (HMO and POS), PPO, and Indemnity Medicare HMO Blue<sup>SM</sup> and Medicare PPO Blue<sup>SM</sup> Members

#### Hormone Therapy

##### Puberty Blockers

Gonadotropin-releasing hormone (GnRH) analog treatment for gender non-conforming adolescents seeking to delay puberty **is covered** at the discretion of the treating provider\*. GnRH analogs may be used to either allow members more time for decision making purposes or as an initial step prior to further gender affirming services such as hormone therapy.

Treatment options include but are not limited to:

- Lupron
- Supprelin LA
- Vantas
- Triptodur (triptorelin).

\*The following criteria are recommended by World Professional Association for Transgender Health (WPATH) Standards of Care 8<sup>th</sup> edition as minimum criteria prior to starting puberty suppressing hormones:

1. The adolescent has demonstrated a long-lasting and intense pattern of gender nonconformity or gender dysphoria (whether suppressed or expressed)
2. Gender dysphoria emerged or worsened with the onset of puberty
3. Any co-existing psychological, medical, or social problems that could interfere with treatment (e.g., that may compromise treatment adherence) have been addressed, such that the adolescent’s situation and functioning are stable enough to start treatment
4. The adolescent has given informed consent and, particularly when the adolescent has not reached the age of medical consent, the parents or other caretakers or guardians have consented to the treatment and are involved in supporting the adolescent throughout the treatment process.

##### Gender Affirming Hormone Therapy

Gender affirming hormone therapy **is covered** at the discretion of the treating provider. Gender affirming hormone therapy options include but are not limited to:

- Estrogen, androgen reducing medications (bicalutamide, spironolactone, GnRH agonists, 5-alpha reductase inhibitors), progestins and testosterone.

Methods of administration vary between these products and may be subject to formulary or tiering restrictions.

### Behavioral Health

Supportive behavioral health services for transgender and gender diverse members with or without additional behavioral health diagnoses **are covered**.

Examples of covered behavioral health services include:

- Initial evaluation
- Counseling
- Psychotherapy.

Behavioral health or substance use disorder services related to diagnoses other than gender identity disorder or gender dysphoria may be governed by other medical policies or the member's subscriber certificate based on the service being rendered. [Please see related policies section](#).

### Fertility Preservation

Oocyte, embryo, or sperm retrieval, freezing and storage for up to 24 months for transgender members prior to undergoing genital gender affirming surgery or hormone therapy\* may be considered **MEDICALLY NECESSARY**. Adequate sperm or egg evaluation would be needed to be eligible. (See medical policy #086, Infertility Diagnosis and Treatment)

Per medical policy #086 Infertility Diagnosis and Treatment, cryopreservation is limited to one cycle only.

\*Inclusive of members who have already started hormone therapy. These members are expected to stop and assess sperm/egg quality prior to cryopreservation.

### Surgical Services

Gender affirming surgeries are considered **MEDICALLY NECESSARY** when criteria in [Table 1](#) are met **AND** any additional criteria specific to surgical types in [Table 2](#) are met.

Table 1
<p>All gender affirming surgical services must meet <b>ALL</b> of the following criteria to be considered <b>MEDICALLY NECESSARY</b></p> <ul style="list-style-type: none"> <li>• Age ≥ 18</li> <li>• The member has been diagnosed with gender dysphoria (ICD-10 codes F64.0-F64.9 gender identity-disorder), and meets <b>ALL</b> the following indications: <ul style="list-style-type: none"> <li>○ The desire to live and be accepted as a member of another gender other than one's assigned sex, typically accompanied by the desire to make the physical body as congruent as possible with the identified gender through surgery and hormone treatment.</li> <li>○ The new gender identity should be present for at least 12 months.</li> <li>○ The member has a consistent, stable gender identity that is well documented by their treating providers, and when possible, lives as their affirmed gender in places where it is safe to do so.</li> <li>○ The gender dysphoria (ICD-10 codes F64.0-F64.9 gender identity disorder) is not a symptom of another mental disorder.</li> </ul> </li> </ul>

Procedure Category	Covered Procedures	Additional Criteria/Notes

<p>Facial feminization or Masculinization</p>	<ul style="list-style-type: none"> <li>• Forehead contouring</li> <li>• Scalp advancement (only as needed in conjunction with forehead contouring).</li> <li>• Rhinoplasty</li> <li>• Mandible reconstruction</li> <li>• Trachea shave</li> <li>• Blepharoplasty</li> <li>• Brow lift</li> <li>• Cheek augmentation</li> <li>• Face lift or liposuction (only as needed in conjunction with one of the above procedures).</li> <li>• Neck lift (only if the excess skin impairs the outcome of the covered facial feminization or masculinization procedures).</li> </ul>	<p>Surgical procedures may be done in stages as needed.</p>
<p>Vocal Cord Surgery</p>	<p>Wendler Glottoplasty for transfeminine members</p>	<p>The treating surgeon must hold board certification in Otolaryngology-Head and Neck Surgery.</p> <p>It is recommended that members undergoing voice feminization surgery also consult a voice and communication specialist to maximize the surgical outcome, help protect vocal health and learn non-pitch related aspects of communication.</p>
<p>Chest Procedures</p>	<ul style="list-style-type: none"> <li>• Mastectomy and/or creation of a male chest (with or without body contouring) for transmasculine or gender diverse members.</li> <li>• Breast augmentation (with or without body contouring) for transfeminine members.</li> </ul>	<p>Hormone therapy is not required for transmasculine or gender diverse members requesting surgical chest procedures.</p> <p>For those candidates without a medical contraindication, the candidate has undergone a minimum of 12 months of continuous hormonal therapy that is provided under the supervision of a licensed clinician.</p>

Genital Procedures	<ul style="list-style-type: none"> <li>• Genital gender affirming surgery for transmasculine, transfeminine or gender diverse members.</li> <li>• Penile construction following transgender surgery using Alloderm is covered.<sup>1</sup></li> </ul>	<p>For those candidates without a medical contraindication, the candidate has undergone a minimum of 6 months of continuous hormonal therapy that is provided under the supervision of a licensed clinician.</p> <p>Genital surgery for transmasculine, transfeminine or gender diverse members may be considered medically necessary when above medically necessary criteria are met as documented by two <b>licensed</b> and treating clinicians (e.g., behavioral health professional, primary care provider, or surgeon).</p> <p>Surgical procedures may be done in stages as needed.</p> <p>Genital surgery for Mayer-Rokitansky-Küster-Hauser (MRKH) syndrome (a disorder that occurs in females and mainly affects the reproductive system) does not require two letters of medical necessity.</p>
Electrolysis	Electrolysis and/or laser hair removal performed by a licensed and/or certified provider, for the removal of hair on skin being used for genital gender affirmation surgery.	<p>Up to 12 electrolysis and/or laser hair removal treatments may be used following the approval of genital surgery for transmasculine, transfeminine or gender diverse members.</p> <p>Greater than 12 electrolysis and/or laser hair removal treatments will require prior authorization with a subsequent letter of medical necessity.</p> <p>Please refer to the Electrolysis for Gender Affirming Services (Transgender Services) Prior Authorization Request Form <a href="#">#902</a>.</p> <p>Electrolysis and/or laser hair removal for any other part of the body for any other indication <b>is not covered</b>.</p>

**Surgical Revisions/Reconstruction**

Reconstructive surgery following gender affirmation surgery (including facial surgery) may be considered **MEDICALLY NECESSARY** when it is performed to:

- Correct complications resulting from the initial surgery **OR**
- Correct functional impairment resulting from initial surgery.

Reconstructive surgery following gender affirmation surgery is **NOT MEDICALLY NECESSARY** to reverse natural signs of aging or if the member is not satisfied with the surgical result.

Any services performed to reverse gender affirmation surgery are considered **INVESTIGATIONAL**.

### Surgical Services for Adolescents

Members <18 years of age will be considered on a case-by-case basis.

In addition to meeting the above criteria, providers requesting surgery for members <18 will need to provide documentation supporting **ALL** of the following:

- The member has adequate home support.
- The member has realistic expectations regarding the possibilities and limitations of surgery and a full understanding of the long-term consequences of surgical procedures.
- The member has been assessed for any co-existing mental health concerns and is not requesting surgery as an initial response to gender dysphoric puberty.

### Speech Therapy/Voice Training

Feminizing or masculinizing speech therapy and/or voice training services for transgender and gender diverse members with or without additional health diagnoses **are covered** services.

### Not Medically Necessary/Not Covered Services

The following procedures are considered **INVESTIGATIONAL** and **are not covered** including but not limited to:

- Body contouring unrelated to chest surgery
- Buttocks enhancement
- Tracheal implant
- Breast lift
- Lip enhancement
- Neck lift (as a stand-alone procedure)
- Dermabrasion
- Chemical peel
- Hair transplant
- Electrolysis (except for genital surgery as noted above).

## CPT Codes / HCPCS Codes / ICD Codes

*Inclusion or exclusion of a code does not constitute or imply member coverage or provider reimbursement. Please refer to the member's contract benefits in effect at the time of service to determine coverage or non-coverage as it applies to an individual member.*

*Providers should report all services using the most up-to-date industry-standard procedure, revenue, and diagnosis codes, including modifiers where applicable.*

*The following codes are included below for informational purposes only; this is not an all-inclusive list.*

**The above [medical necessity criteria \(pp. 2-5\)](#) MUST be met for the following codes to be covered for Commercial Members: Managed Care (HMO and POS), PPO, Indemnity, Medicare HMO Blue and Medicare PPO Blue:**

### CPT Codes

#### Male to Female Surgery

<b>CPT codes</b>	<b>Code Description</b>
17380	Electrolysis epilation, each 30 minutes
19325	Breast augmentation with implant
19350	Nipple/areola reconstruction
19357	Tissue expander placement in breast reconstruction, including subsequent expansion(s)
19380	Revision of reconstructed breast (eg, significant removal of tissue, re-advancement and/or re-inset of flaps in autologous reconstruction or significant capsular revision combined with soft tissue excision in implant-based reconstruction)
53410	Urethroplasty, 1-stage reconstruction of male anterior urethra
53420	Urethroplasty, 2-stage reconstruction or repair of prostatic or membranous urethra; first stage
53425	Urethroplasty, 2-stage reconstruction or repair of prostatic or membranous urethra; second stage
54120	Amputation of penis; partial
54125	Amputation of penis; complete
54300	Plastic operation of penis for straightening of chordee (eg, hypospadias), with or without mobilization of urethra
55970	Intersex surgery; male to female
56800	Plastic repair of introitus
56805	Clitoroplasty for intersex state
57291	Construction of artificial vagina; without graft
57292	Construction of artificial vagina; with graft
57335	Vaginoplasty for intersex state

## Gender Affirming Facial Surgery

### Brow Reconstruction

<b>CPT codes</b>	<b>Code Description</b>
21137	Reduction forehead; contouring only
21138	Reduction forehead; contouring and application of prosthetic material or bone graft (includes obtaining autograft)
21139	Reduction forehead; contouring and setback of anterior frontal sinus wall
21208	Osteoplasty, facial bones; augmentation (autograft, allograft, or prosthetic implant)
21209	Osteoplasty, facial bones; reduction
21299	Unlisted craniofacial and maxillofacial procedure
21499	Unlisted musculoskeletal procedure, head

### Brow Lift

<b>CPT codes</b>	<b>Code Description</b>
67900	Repair of brow ptosis (supraciliary, mid-forehead or coronal approach)

### Blepharoplasty

<b>CPT codes</b>	<b>Code Description</b>
15820	Blepharoplasty, lower eyelid
15821	Blepharoplasty, lower eyelid; with extensive herniated fat pad
15822	Blepharoplasty, upper eyelid
15823	Blepharoplasty, upper eyelid; with excessive skin weighting down lid

### Rhinoplasty

<b>CPT codes</b>	<b>Code Description</b>
30400	Rhinoplasty, primary; lateral and alar cartilages and/or elevation of nasal tip
30410	Rhinoplasty, primary; complete, external parts including bony pyramid, lateral and alar cartilages, and/or elevation of nasal tip
30420	Rhinoplasty, primary; including major septal repair

### Cheek Augmentation

CPT codes	Code Description
21270	Malar augmentation, prosthetic material
21208	Osteoplasty, facial bones; augmentation (autograft, allograft, or prosthetic implant)
21209	Osteoplasty, facial bones; reduction

### Jaw Reconstruction

CPT codes	Code Description
21125	Augmentation, mandibular body or angle; prosthetic material
21127	Augmentation, mandibular body or angle; with bone graft, onlay or interpositional (includes obtaining autograft)
21208	Osteoplasty, facial bones; augmentation (autograft, allograft, or prosthetic implant)
21209	Osteoplasty, facial bones; reduction
21299	Unlisted craniofacial and maxillofacial procedure
21499	Unlisted musculoskeletal procedure, head

### Chin Reconstruction

CPT codes	Code Description
21120	Genioplasty; augmentation (autograft, allograft, prosthetic material)
21121	Genioplasty; sliding osteotomy, single piece
21122	Genioplasty; sliding osteotomies, 2 or more osteotomies (eg, wedge excision or bone wedge reversal for asymmetrical chin)
21123	Genioplasty; sliding, augmentation with interpositional bone grafts (includes obtaining autografts)
21208	Osteoplasty, facial bones; augmentation (autograft, allograft, or prosthetic implant)
21209	Osteoplasty, facial bones; reduction
21299	Unlisted craniofacial and maxillofacial procedure
21499	Unlisted musculoskeletal procedure, head

### Face Lift

The following codes are covered when required as part of a medically necessary facial feminization procedure.

CPT codes	Code Description
15824	Rhytidectomy; forehead
15825	Rhytidectomy; neck with platysmal tightening (platysmal flap, P-flap)
15826	Rhytidectomy; glabellar frown lines
15828	Rhytidectomy; cheek, chin, and neck

### Liposuction

The following codes are covered when required as part of a medically necessary facial feminization procedure.

CPT codes	Code Description
15876	Suction assisted lipectomy; head and neck

### Trachea Shave

CPT codes	Code Description
31599	Unlisted procedure, larynx

### Vocal Cord Surgery

CPT codes	Code Description
31599	Unlisted procedure, larynx

### Female to Male Surgery

CPT codes:	Code Description
------------	------------------

15877	Suction assisted lipectomy; trunk
19303	Mastectomy, simple, complete
19316	Mastopexy
19318	Breast reduction
19350	Nipple/areola reconstruction
53430	Urethroplasty, reconstruction of female urethra
54660	Insertion testicular prosthesis
55175	Scrotoplasty; simple
55180	Scrotoplasty; complex
55980	Intersex surgery; female to male
56620	Vulvectomy; simple
56625	Vulvectomy; complete
56800	Plastic repair of introitus
56805	Clitoroplasty for intersex state
56810	Perineoplasty, repair of perineum, nonobstetrical
57110	Vaginectomy; complete removal of vaginal wall
57111	Vaginectomy; with removal of paravaginal tissue (radical vaginectomy)

### HCPCS Codes

HCPCS codes	Code Description
Q4116	AlloDerm, per sq cm

The following ICD Diagnosis Codes are considered medically necessary when submitted with the CPT code above if above medical necessity criteria on pp. 1-2 are met:

### ICD-10 Diagnosis Codes

ICD-10-CM Diagnosis codes	Code Description
F64.0	Transsexualism
F64.1	Gender identity disorder in adolescence and adulthood
F64.2	Gender identity disorder of childhood
F64.8	Other identity disorders
F64.9	Gender identity disorder, unspecified

The above [medical necessity criteria](#) on pp. 2-7 **MUST** be met for the following codes to be covered for Commercial Members: Managed Care (HMO and POS), PPO, Indemnity, Medicare HMO Blue and Medicare PPO Blue:
